CAREER OBJECTIVE

Motivated Artificial Intelligence & Machine Learning undergraduate seeking an opportunity to apply skills in building scalable AI applications, API integration, and model deployment. Eager to contribute to real-world ML solutions while growing within a dynamic and innovative organization.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript, TypeScript, SQL
Full-Stack & Backend: React, Node.js, Express.js, FastAPI, Flask, Spring Boot, REST APIs, WebSockets
AI/ML: PyTorch, TensorFlow, Scikit-learn, LLMs, RAG, Prompt Engineering, LangChain, LangGraph, Agentic AI, MLOps
Databases: MongoDB, MySQL, PostgreSQL, SQLite
Tools & Platforms: Git, GitHub, Docker, AWS (EC2), CI/CD, Postman, Render, Vercel, Netlify, Railway

EDUCATION

B.E. in Artificial Intelligence & Machine Learning | CGPA: 9.74 / 10 **2023-2027**

BNM Institute of Technology, Bengaluru

Relevant Coursework: DSA, Operating Systems, DBMS, Computer Networks, Machine Learning, Deep Learning, Computer Vision

INTERSHIP

AI Engineer Intern – Matrix Maven **Feb 2026 – May 2026**

- Building a compliance intelligence platform by modeling ISO 27000, SOC 2, and DORA controls in Neo4j for cross-framework mapping.
- Implemented backend workflows for compliance discovery based on region, industry, and data scope.
- Developed agentic AI workflows using LangChain and LangGraph to automate evidence processing and monitoring.

Project Intern – AidelTecz **May 2025 – Jul 2025**

- Built a real-time car booking platform with role-based dashboards, live tracking, and instant SMS/Email notifications.
- Developed a FastAPI + MongoDB backend with dynamic ride management, driver matching (Haversine), analytics, and real-time Socket.IO + Leaflet.js updates.

PROJECTS

MedVault - AI-Driven Healthcare Document Privacy Pipeline

- Developed healthcare privacy pipeline using FastAPI, Presidio, scispacy, OCR, and Mistral AI for PHI detection and explanations.
- Implemented destructive redaction, QA re-scan, zero-PHI-at-rest temp storage, secure sharing, and SHA-256 audit logs.

ClimaX - AI-Powered Disaster Risk & Resilience Platform

- Built disaster intelligence platform with FastAPI async APIs, RAG, IBM Granite, Groq LLaMA, and weather/AQI data fusion.
- Developed explainable alerts, multilingual voice AI, policy recommendations, and QAOA-inspired resource optimization.

PulsePoint AI - Agentic Project Health Intelligence Platform

- Built autonomous agent ingesting XLSX/CSV/JSON, computing deterministic RAG scores, and running tool-calling investigations.
- Generated executive dashboards, weekly PDF reports, monthly synthesis, and PPTX decks using FastAPI, SQLite, and React.

ACHIEVEMENTS

- 4x National-Level Hackathon Winner; 8 Top-10 finishes** across intercollegiate competitions.
- Silver Honour - Eureka Ideathon 2025 (BNMIT x E-Cell IIT Bombay); Top-5** - Mini Anveshna & BIT Ideathon 2025.
- 3rd Place** - National Seminar on World Engineers Day for MedVault - AI-Driven Healthcare Document Privacy Pipeline (IEI Bengaluru).
- Led school cricket team to State-Level Finals; **Man of the Match** awardee.

PUBLICATIONS, IP & CERTIFICATIONS

- 4 paper publications.**
- 1 copyright and 1 patent filed.**
- CompTIA Security+ (SY0-701) - CompTIA
- Introduction to Model Context Protocol & AI Fluency for Students - Anthropic, 2026
- Use of Generative AI For Software Development - IBM, 2025
- Introduction to Python - Infosys, 2025

LEADERSHIP, VOLUNTEERING & INTERESTS

Leadership & Volunteering

- Joint Secretary** – IEEE Computational Intelligence Society (BNMIT Chapter)
- Volunteer – **NSS** and **Connect4Society**

Hobbies & Interests

- Football & Cricket – Represented school at the state level.
- Drawing & Sketching – Enhances creativity, visualization skills, and attention to detail.
