CAREER OBJECTIVE

Motivated Artificial Intelligence & Machine Learning undergraduate seeking an opportunity to apply skills in building scalable AI applications, API integration, and model deployment. Eager to contribute to real-world ML solutions while growing within a dynamic and innovative organization.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript, TypeScript, SQL
Full-Stack & Backend: React, Node.js, FastAPI, Flask, Spring Boot, REST APIs, WebSockets
AI/ML: PyTorch, TensorFlow, Scikit-learn, LLMs, RAG, Prompt Engineering, LangChain, LangGraph, Agentic AI, MLOps
Databases: MongoDB, MySQL, PostgreSQL, SQLite
Tools & Platforms: Git, GitHub, Docker, AWS (EC2), CI/CD, Postman, Render, Vercel, Netlify, Railway

EDUCATION

B.E. in Artificial Intelligence & Machine Learning | CGPA: 9.74 / 10 **2023-2027**
BNM Institute of Technology, Bengaluru
Relevant Coursework: DSA, Operating Systems, DBMS, Computer Networks, Machine Learning, Deep Learning, Computer Vision, Generative AI, Agentic AI

INTERNSHIP

Project Intern - Electronics & Radar Development Establishment (LRDE), DRDO **Aug 2026 - Present**

- Working as a AI project intern at Electronics & Radar Development Establishment (LRDE), DRDO, contributing to research and development activities in a defence technology environment.

AI Engineer Intern - Matrix Maven **Feb 2026 - May 2026**

- Built compliance intelligence workflows using Neo4j, FastAPI, LangChain, and LangGraph for cross-framework evidence processing.

Full Stack Development Intern - AidelTec **May 2025 - Jul 2025**

- Built a FastAPI + MongoDB car booking platform with role-based dashboards, driver matching, analytics, and live tracking.

PROJECTS

MedVault - AI-Driven Healthcare Document Privacy Pipeline

- Developed healthcare privacy pipeline using FastAPI, Presidio, scispaCy, OCR, and Mistral AI for PHI detection and explanations.
- Implemented destructive redaction, QA re-scan, zero-PHI-at-rest temp storage, secure sharing, and SHA-256 audit logs.

ClimaX - AI-Powered Disaster Prediction & Resilience Platform

- Built disaster intelligence platform with FastAPI async APIs, RAG, IBM Granite, Groq LLaMA, and weather/AQI data fusion.
- Developed explainable alerts, multilingual voice AI, policy recommendations, and QAOA-inspired resource optimization.

PulsePoint AI - Agentic Project Health Intelligence Platform

- Built autonomous agent ingesting XLSX/CSV/JSON, computing deterministic RAG scores, and running tool-calling investigations.
- Generated executive dashboards, weekly PDF reports, monthly synthesis, and PPTX decks using FastAPI, SQLite, and React.

ACHIEVEMENTS

- 4x National-Level Hackathon Winner; 8 Top-10 finishes.**
- Silver Honour - Eureka Ideathon 2025; Top-5** - Mini Anveshna & BIT Ideathon 2025.
- 3rd Place** - World Engineers Day National Seminar for MedVault (IEI Bengaluru).
- Presented project ClimaX at **NASSCOM National Confluence 2025**, Sheraton Grand Hotel.
- Led school cricket team to State-Level Finals; **Man of the Match** awardee.

PUBLICATIONS, IP & CERTIFICATIONS

- 3 paper publications and 1 book chapter publication.**
- 1 copyright and 1 patent filed.**
- Google Prompting Essentials, Google AI Essentials, and Generative AI Leader Certification, 2026.
- Model Context Protocol & AI Fluency for Students - Anthropic, 2026
- Generative AI for Software Development - IBM, 2025
- CompTIA Security+ (SY0-701) - CompTIA
- Introduction to Python - Infosys, 2025

LEADERSHIP, VOLUNTEERING & INTERESTS

Leadership & Volunteering

- Joint Secretary** – IEEE Computational Intelligence Society (BNMIT Chapter)
- Volunteer – **NSS** and **Connect4Society**

Hobbies & Interests

- Football & Cricket – Represented school at the state level.
- Drawing & Sketching – Enhances creativity, visualization skills, and attention to detail.
